

SAFETY DATA SHEET
CHEMINOVA GLYPHOSATE II

SDS # : FO002204-1-A
Revision date: 2017-05-22
Format: NA
Version 1

1. PRODUCT AND COMPANY IDENTIFICATION

Product Identifier

Product Name CHEMINOVA GLYPHOSATE II

Other means of identification

Product Code(s) FO002204-1-A

Synonyms GLYPHOSATE ISOPROPYLAMINE SALT: 2-(phosphonomethylamino)acetate (CAS name); 2-(phosphonomethylamino)acetate (IUPAC name)

Active Ingredient(s) Glyphosate, in the form of its isopropylamine salt

Chemical Family Phosphonoglycine

PCP # 28925

Recommended use of the chemical and restrictions on use

Recommended Use: Herbicide

Restrictions on Use: Use as recommended by the label

Supplier Address

FMC Corporation
2929 Walnut Street
Philadelphia, PA 19104
(215) 299-6000 (General Information)
msdsinfo@fmc.com (E-Mail General Information)

Emergency telephone number

For leak, fire, spill, or accident emergencies, call:
(800) 424-9300 (CHEMTREC - U.S.A. & Canada)
(703) 527-3887 (CHEMTREC - all other countries)

(207) 594-3200 (FMC Plant - Rockland, ME)
(303) 595-9048 (Medical - U.S. - Call Collect)

2. HAZARDS IDENTIFICATION

Classification

OSHA Regulatory Status

This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200)

Acute toxicity - Inhalation (Dusts/Mists)	Category 4
Serious eye damage/eye irritation	Category 2B

GHS Label elements, including precautionary statements

EMERGENCY OVERVIEW

Warning**Hazard Statements**

H332 - Harmful if inhaled

H320 - Causes eye irritation

H411 - Toxic to aquatic life with long lasting effects

**Precautionary Statements - Prevention**

P202 - Do not handle until all safety precautions have been read and understood

P261 - Avoid breathing dust/fume/gas/mist/vapors/spray

P271 - Use only outdoors or in a well-ventilated area

P273 - Avoid release to the environment

P264 - Wash hands thoroughly after handling

P280 - Wear protective gloves/protective clothing/eye protection/face protection

Precautionary Statements - Response

P312 - Call a POISON CENTER or doctor if you feel unwell

P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing

P337 + P313 - If eye irritation persists: Get medical advice/ attention

P302 + P352 - IF ON SKIN: Wash with plenty of water and soap

P304 + P340 - IF INHALED: Remove person to fresh air and keep comfortable for breathing

P391 - Collect spillage

Precautionary Statements - Storage

P405 - Store locked up

P403 + P233 - Store in a well-ventilated place. Keep container tightly closed

Precautionary Statements - Disposal

P501 - Dispose of contents/container according to label directions

Hazards not otherwise classified (HNOC)

No hazards not otherwise classified were identified.

Other Information

Toxic to aquatic life with long lasting effects. May be harmful in contact with skin.

3. COMPOSITION/INFORMATION ON INGREDIENTS**Chemical Family** Phosphonoglycine.

Chemical name	CAS-No	Weight %
Glyphosate IPA Salt	38641-94-0	30-60

Synonyms are provided in Section 1.

*Note: The product contains about 475 g/L of the active ingredient Glyphosate as its isopropylamine salt, equivalent to 356 g/L of the free acid Glyphosate (CAS # 1071-83-6).

4. FIRST AID MEASURES**Eye Contact**

Hold eyes open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison

control center or doctor for further treatment advice.

Skin Contact

Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for further treatment advice.

Inhalation

Move to fresh air. If person is not breathing, call 911 (within the U.S. and Canada) or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

Ingestion

Call a physician or poison control center immediately. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Never give anything by mouth to an unconscious person.

Most important symptoms and effects, both acute and delayed

Skin contact: May see mild irritation at the site of contact.

Eye contact: Possible irritation and redness.

Ingestion: Possible irritation of the throat.

Inhalation: May experience irritation of the throat with a feeling of tightness in the chest.

Delayed/Immediate effects: Immediate effects can be expected after short-term exposure.

No known/observed signs or symptoms of short-term (acute) exposure. Prolonged or repeated (chronic) exposure may cause damage to organs.

Indication of immediate medical attention and special treatment needed, if necessary

Treat symptomatically

5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media

Dry chemical, CO₂, water spray or regular foam. Avoid heavy hose streams.

Specific Hazards Arising from the Chemical

Combustible liquid. This material may burn when exposed to extreme heat, flame and other ignition sources. Closed containers may rupture if exposed to excess heat or flame due to build-up of internal pressure. Reacts with materials made of iron, galvanized steel and unlined steel, releasing flammable hydrogen gas, which may ignite. Flammable hydrogen gas can produce a highly combustible mixture with air and this mixture could flash or explode if ignited by heat, sparks and flame.

Hazardous Combustion Products

Carbon oxides (CO_x), Nitrogen oxides (NO_x), Phosphorus oxides.

Explosion data**Sensitivity to Mechanical Impact**

Not sensitive.

Sensitivity to Static Discharge

Not sensitive.

Protective equipment and precautions for firefighters

As in any fire, wear self-contained breathing apparatus and full protective gear. Move containers from fire area if you can do it without risk. Use water spray to cool fire exposed surfaces and protect personnel.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions

Isolate and post spill area. Remove all sources of ignition. Wear suitable protective clothing, gloves and eye/face protection. For personal protection see section 8.

Other

For further clean-up instructions, call FMC Emergency Hotline number listed in Section 1 "Product and Company Identification" above.

Environmental Precautions

See Section 12 for additional Ecological Information.

Methods for Containment

Dike to confine spill and absorb with non-combustible absorbent such as clay, sand or soil. Vacuum or shovel waste into a drum and label contents for disposal.

Methods for cleaning up

Remove all sources of ignition. Ventilate area of release. Stop the spill at source if it is safe to do so. Contain and absorb spilled material with inert, non-combustible absorbent material, such as sand. Sweep up and shovel into suitable containers for disposal. For a water spill, confine the spill immediately with booms. Large spills that soak into the ground

should be dug up, placed into suitable containers and disposed of appropriately (see Section 13). Notify the appropriate authorities as required.

7. HANDLING AND STORAGE

Handling	<p>Handle in accordance with good industrial hygiene and safety practice. Do not contaminate other pesticides, fertilizers, water, food, or feed by storage or disposal. Avoid contact with skin, eyes and clothing. Do not breathe vapors or spray mist. Remove all sources of ignition. Keep away from heat, sparks and open flame. No smoking.</p> <p>This product should be mixed, stored or applied using only stainless steel, fiberglass, plastic, or plastic lined containers and equipment. This product can react with containers made of iron, galvanized steel and unlined steel to produce flammable hydrogen gas. Avoid contact with incompatible materials. Use caution when opening cap. Keep containers tightly closed when not in use.</p>
Storage	<p>Keep away from open flames, hot surfaces and sources of ignition. Keep in a dry, cool and well-ventilated place. Keep out of reach of children and animals. Keep/store only in original container.</p>
Incompatible products	<p>Strong oxidizing agents, Alkalies, Iron, Galvanized steel, Unlined steel. Strong oxidizing agents Alkalies Iron</p>

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters

This product, as supplied, does not contain any hazardous materials with occupational exposure limits established by the region specific regulatory bodies.

Appropriate engineering controls

Engineering measures	<p>Apply technical measures to comply with the occupational exposure limits. When working in confined spaces (tanks, containers, etc.), ensure that there is a supply of air suitable for breathing and wear the recommended equipment.</p>
-----------------------------	---

Individual protection measures, such as personal protective equipment

Eye/Face Protection	<p>For dust, splash, mist or spray exposure, wear chemical protective goggles.</p>
Skin and Body Protection	<p>Avoid contact with skin and clothing. Wear long-sleeved shirt, long pants, socks, and shoes. Wear impervious protective clothing, including boots, gloves, lab coat, apron or coveralls, as appropriate, to prevent skin contact.</p>
Hand Protection	<p>Impervious gloves. Wash the outside of gloves with soap and water prior to removal. Inspect regularly for leaks.</p>
Respiratory Protection	<p>Do not breathe vapors, mist or gas. In case of mist, spray or aerosol exposure wear suitable personal respiratory protection and protective suit. Use only with adequate ventilation.</p>
Hygiene measures	<p>Clean water should be available for washing in case of eye or skin contamination. Remove and wash contaminated clothing before re-use. Wash skin prior to eating, drinking, chewing gum or using tobacco. Shower or bathe at the end of working. Launder work clothing separately from regular household laundry.</p>
General information	<p>If the product is used in mixtures, it is recommended that you contact the appropriate protective equipment suppliers.</p>

9. PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical and chemical properties

Appearance	<p>Viscous, Liquid suspension</p>
-------------------	-----------------------------------

Physical State	Liquid
Color	Clear, Yellow
Odor	Slight amine
Odor threshold	No information available
pH	4.5 (1% solution) @ 20°C
Melting point/freezing point	< 0 °C / 32 °F
Boiling Point/Range	113 °C / 235 °F
Flash point	> 113 °C / > 235 °F (estimated)
Evaporation Rate	No information available
Flammability (solid, gas)	No information available
Flammability Limit in Air	
Upper flammability limit:	No information available
Lower flammability limit:	No information available
Vapor pressure	1.75 x 10 ⁻⁷ mmHg (1.31 x 10 ⁻⁵ Pa) @ 77°F / 25°C (free Glyphosate acid).
Vapor density	No information available
Density	No information available
Specific gravity	1.165 g/cm ³ @ 68°F(20°C)
Water solubility	Miscible with water
Solubility in other solvents	No information available
Partition coefficient	No information available
Autoignition temperature	No information available
Decomposition temperature	No information available
Viscosity, kinematic	43 centistokes @ 68°F / 20°C; 18 centistokes @ 104°F / 40°C
Viscosity, dynamic	No information available
Explosive properties	No information available
Oxidizing properties	No information available
Molecular weight	No information available
Bulk density	No information available

10. STABILITY AND REACTIVITY

Reactivity	This product can react with containers made of iron, galvanized steel and unlined steel to produce flammable hydrogen gas which may form a highly combustible gas mixture with air. This gas mixture could flash or explode when exposed to heat, sparks, flame, welder's torch, lighted cigarettes or other ignition sources.
Chemical Stability	Stable under recommended storage conditions.
Possibility of Hazardous Reactions	None under normal processing.
Hazardous polymerization	Hazardous polymerization does not occur. The product does react with caustic (alkaline) materials to liberate heat, however this is an acid-base neutralization reaction and is not polymerisation.
Conditions to avoid	Heat, flames and sparks. Extremes of temperature and direct sunlight
Incompatible materials	Strong oxidizing agents, Alkalis, Iron, Galvanized steel, Unlined steel.
Hazardous Decomposition Products	See Section 5 for more information.

11. TOXICOLOGICAL INFORMATION

Product Information

LD50 Oral	> 5000 mg/kg (rat)
LD50 Dermal	> 2000 mg/kg (rat)
LC50 Inhalation	> 4.86 mg/L (4-hr) (rat) - Maximum attainable concentration (zero mortality)
Serious eye damage/eye irritation	Contact with eyes may cause irritation.
Skin corrosion/irritation	May cause slight irritation.
Sensitization	No information available

Information on toxicological effects

Symptoms	Inhalation: Inhalation may cause irritation to the nose, throat and upper respiratory tract. Symptoms may include coughing and sneezing.
-----------------	--

Skin contact: Direct skin contact may cause slight irritation.
 Eye contact: Direct eye contact may cause moderate irritation and reversible eye injury.
 Symptoms may include pain, redness and tearing.
 Ingestion: This product is not expected to be harmful by oral administration route. Ingestion of large amounts could cause irritation. Symptoms may include nausea, vomiting and diarrhea.
 Effects of long-term (chronic) exposure: Prolonged or repeated overexposure may cause liver and kidney effects.

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Mutagenicity	Not expected to be mutagenic in humans
Carcinogenicity	There are no known carcinogenic chemicals in this product
Reproductive toxicity	Not expected to have reproductive effects.
Teratogenicity	Not expected to be a teratogen.
STOT - single exposure	No information available.
STOT - repeated exposure	No information available.
Target organ effects	Eyes, Skin, Respiratory System, Digestive system
Aspiration hazard	No information available.

Chemical name	ACGIH	IARC	NTP	OSHA
Glyphosate IPA Salt 38641-94-0		Group 2A		X

Legend:

IARC (International Agency for Research on Cancer)

Group 2A - Probably Carcinogenic to Humans

12. ECOLOGICAL INFORMATION

Ecotoxicity

Glyphosate IPA Salt (38641-94-0)				
Active Ingredient(s)	Duration	Species	Value	Units
Glyphosate	48 h EC50	Daphnia	21.6	mg/L
	LC50 5 d	Mallard duck	>5,620	mg/kg
	LC50 5 d	Bobwhite quail	>5,620	mg/kg
	EC50 96h	Algae	2.2	mg/L
	LD50	Bee	>100	µg/bee

Chemical name	Toxicity to algae	Toxicity to fish	Toxicity to daphnia and other aquatic invertebrates
Glyphosate IPA Salt 38641-94-0		96 h LC50: = 2.3 mg/L (Pimephales promelas) static 96 h LC50: = 5.6 mg/L (Lepomis macrochirus) static 96 h LC50: = 8.3 mg/L (Oncorhynchus mykiss) static	48 h EC50: 2.6 - 3.4 mg/L (Daphnia magna) Static

Persistence and degradability Glyphosate: Persistent. Readily hydrolyzes.

Bioaccumulation Glyphosate: Bioaccumulation is unlikely.

Mobility Glyphosate: Relatively immobile in soil.

13. DISPOSAL CONSIDERATIONS

Waste disposal methods Improper disposal of excess pesticide, spray mixture, or rinsate is prohibited. If these wastes cannot be disposed of by use according to label instructions, contact appropriate disposal authorities for guidance. Proper personal protective equipment, as described in Sections 7 and 8, must be worn while handling materials for waste disposal.

Contaminated Packaging Containers must be disposed of in accordance with local, state and federal regulations.

Refer to the product label for container disposal instructions.

14. TRANSPORT INFORMATION

<u>DOT</u>	NOT REGULATED
<u>TDG</u>	NOT REGULATED
<u>ICAO/IATA</u>	NOT REGULATED
<u>IMDG/IMO</u>	NOT REGULATED

15. REGULATORY INFORMATION

U.S. Federal Regulations

SARA 313

Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product does not contain any chemicals which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 372

SARA 311/312 Hazard Categories

Acute health hazard	Yes
Chronic health hazard	Yes
Fire hazard	No
Sudden release of pressure hazard	No
Reactive Hazard	No

Clean Water Act

This product does not contain any substances regulated as pollutants pursuant to the Clean Water Act (40 CFR 122.21 and 40 CFR 122.42).

CERCLA

This material, as supplied, does not contain any substances regulated as hazardous substances under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302) or the Superfund Amendments and Reauthorization Act (SARA) (40 CFR 355). There may be specific reporting requirements at the local, regional, or state level pertaining to releases of this material.

FIFRA Information

This chemical is a pesticide product registered by the Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets, and for workplace labels of non-pesticide chemicals. Following is the hazard information as required on the pesticide label:

Caution

Reacts with materials made of iron, galvanized steel and unlined steel, liberating (releasing) hydrogen, which may ignite. May cause eye irritation. Contains material which may cause liver and kidney effects.

Dangerous for the environment. Toxic to flora (plants). May be harmful to aquatic organisms.

US State Regulations

California Proposition 65

This product does not contain any Proposition 65 chemicals.

U.S. State Right-to-Know Regulations

This product does not contain any substances regulated by state right-to-know regulations

International Inventories

CANADAWHMIS Statement

This product has been classified in accordance with the Hazardous Products Regulations (HPR) and the SDS contains all the information required by the HPR.

This product is a Pest Control Product and is not regulated as a Controlled Product under the Hazardous Products Act (HPA). However, for reference purposes only, this product would have the following WHMIS Classification if it were regulated as a Controlled Product under the HPA:

WHMIS Hazard Class

D2B - Toxic materials

**16. OTHER INFORMATION**

NFPA	Health Hazards 1	Flammability 1	Instability 0	Special Hazards -
HMIS	Health Hazards 2*	Flammability 1	Physical hazard 0	Personal Protection X

*Indicates a chronic health hazard.
